

Introducing a
Medical Benefit
Option That
Goes Beyond
the Basics

Southwestern Health Resources

CONNECTIONS DESIGNED TO TAKE THE GUESSWORK OUT OF GETTING EXCEPTIONAL CARE

UT CONNECT is a new benefit option available to University of Texas System employees in North Texas for 2018–2019. It gives you a choice for coverage that combines a focus on both quality and value.

Southwestern Health Resources, the network established by UT Southwestern Medical Center and Texas Health Resources, is the foundation of the benefit option. As a result, this coverage links you and your family to a full range of care—from annual physicals and primary prevention programs to groundbreaking treatment capabilities for major illnesses.

UT CONNECT offers savings on out-of-pocket costs with the same core coverage as UT SELECT. Advantages designed especially for members include access to:

- + **4,200+ physicians, caregivers, and health care leaders** located throughout North Texas:
 - UT Southwestern Medical Center
 - Texas Health Resources
 - Pediatric Hospitals in the Dallas/Fort Worth Metroplex
- + **Primary care physicians** available to help you and each member of your family with a range of health care needs, such as annual checkups, guidance to manage health issues, and much more.
- + Some of the **most highly regarded specialists** in the United States—at the forefront of cardiology, cancer, neuroscience, orthopedics, obstetrics/gynecology, pediatrics, and other specialized care.

Don't Miss the Opportunity to Enroll in UT CONNECT

To participate, you must enroll in UT CONNECT coverage during annual benefits enrollment. Simply choose it as your medical benefit option for 2018–2019.

Compare Your Options

These are just a few of the differences for full-time benefits-eligible employees and non-Medicare retirees. Go online for more comprehensive 2018–2019 benefits information, or contact us to find out more (*including information for part-time benefits-eligible employees*).

In-Network Care

UT CONNECT provides access to physicians, caregivers, outpatient facilities, and hospitals in the network. There is no coverage for out-of-network care, except for true emergencies and a few other specific situations. If needed, we'll be available to assist you in getting the care you need within the network, including referrals to specialists and pre-authorizations.

A Plan Designed for You

UT CONNECT is built on the success of Southwestern Health Resources. This starts with ensuring patients have a primary care medical home and providing extra services, which are designed to improve the coordination of health care and quality. With UT CONNECT, you and your family receive the added value of Southwestern Health Resources, including substantial experience and effective resources to help meet your health care needs.
